Ok, publishing today. Would love an answer so I don't have to leave open question for audience about future grants.

HQ will have to answer that question. I've forwarded your inquiry ... let me know if you don't hear back from them.

And will future grants be affected by overall EPA cuts?

Jordan, I forwarded your inquiry to our HQ press office as they're dealing with all budget inquiries. My understanding is that no previously awarded grant would be affected by any budget proposal. Also, I'm not aware of any grants related to our work in East Chicago.

Thanks for the response Mark.

Jeff--are there other grants issues before the \$100 million for Flint that are affected by cuts? And for East Chicago?

Deadline for story is this afternoon.

Jordan,

The \$100 million WIIN funding for Flint has been approved, so, that isn't affected by anything to the best of my knowledge. I'm not involved in East Chicago. This question would be best answered by our Headquarters staff who are more knowledgeable on EPA's current and proposed budget. I've cc'd Jeff Kelley in our press office who can advise on who would be best to address your question.

Thanks,
Mark

Mark,

Jordan with The Young Turks. I'm working on a story about how the EPA's proposed cuts will further harm Flint and East Chicago.

I'm trying to get information on whether specific grants to Flint and East Chicago will be affected. Could you assist with that?

Jordan
